

## FITOSOIL LABORATORIOS, S.L. (Unipersonal)

Dirección/Address: Pol. Ind. Oeste. C/ Alcalde Clemente García, Parc. 24/37. Mod. D-1 Y D-2.  
Apdo. de Correos 200; 30169 San Ginés (Murcia) - Spain

Norma de referencia/Standards: **UNE-EN ISO/IEC 17025:2017**

Actividad/Activity: **Ensayo/Test**

Acreditación/Accreditation nº: **387/LE619**

Fecha de entrada en vigor/Coming into effect: 03/10/2003

### ALCANCE DE LA ACREDITACIÓN/SCHEDULE OF ACCREDITATION

(Rev. /*Ed.* 41 fecha/date 04/05/2023)

**PROGRAMA DE ACREDITACIÓN: "ENSAYOS FÍSICO-QUÍMICOS DE ABONOS CE Y DEMÁS PRODUCTOS FERTILIZANTES" (NT-70.07)\*:**

**ACCREDITATION PROGRAM: "PHYSICAL-CHEMICAL TESTS OF EC FERTILIZERS AND OTHER FERTILIZER PRODUCTS" (NT-70.07)\*:**

Ensayos físico-químicos de abonos CE y demás productos fertilizantes: nutrientes principales, secundarios y micronutrientes:

*Physical-chemical tests of EC fertilizers and other fertilizer products: main, secondary and micronutrient nutrients:*

- Determinación del Nitrógeno total/Total nitrogen determination
- Determinación del Nitrógeno amoniacal/Ammonium nitrogen determination
- Determinación del Nitrógeno nítrico y amoniacal/Nitric and ammonium nitrogen determination
- Determinación del Nitrógeno ureico/Ureic nitrogen determination
- Determinación del fósforo soluble en ácidos minerales/Soluble phosphorus in mineral acids determination
- Determinación del fósforo soluble en citrato amónico neutro/Soluble phosphorus in neutral ammonium citrate determination
- Determinación del fósforo soluble en agua/Water-soluble phosphorus determination
- Determinación del potasio soluble en agua/Water-soluble potassium determination
- Determinación de materia orgánica total/Total organic matter determination
- Determinación de nitrógeno orgánico/Organic nitrogen determination
- Determinación del Extracto húmico/Humic extract determination
- Determinación de ácidos húmicos/Humic acids determination
- Determinación de ácidos fulvicos/Fulvic acids determination
- Determinación de calcio total y soluble en agua/Total and water-soluble calcium determination
- Determinación de magnesio total y soluble en agua/Total and water-soluble magnesium determination
- Determinación de azufre total y soluble en agua/Total and water-soluble sulfur determination
- Determinación de boro, cobalto, cobre, hierro, manganeso, molibdeno y zinc total y soluble en agua/Total and water-soluble boron, cobalt, copper, iron, manganese, molybdenum and zinc determination
- Determinación de pH/pH determination
- Determinación de Humedad/Moisture determination

**PROGRAMA DE ACREDITACIÓN: "ENSAYOS PARA EL CONTROL DE LA PRODUCCIÓN ECOLÓGICA" (NT-70.09)\*:**

**ACCREDITATION PROGRAMME: "TEST FOR THE CONTROL OF ORGANIC PRODUCTION" (NT-70.09)\***

- Ensayos de residuos de plaguicidas para el control de la producción ecológica:

*Test residue of pesticides for the control of organic production*

- Multi-residuos de plaguicidas mediante CG-MS/MS y LC-MS/MS / Pesticides Multi-residue by CG-MS/MS and LC-MS/MS
- Glifosato / Glyphosate
- Fosetyl-Al / Fosetyl-Al
- Clorato y perclorato / Chlorate and perchlorate

- Ensayos de residuos de metales para el control de la producción ecológica:

*Test residue of metals for the control of organic production*

- Cobre, Plomo, Cadmio / Copper, Lead and Cadmium

\*Disponible en la página web de ENAC

\* Available on the ENAC website

ENAC is signatory of the Multilateral Recognition Agreements established by the European and International organizations of Accreditation Bodies EA, ILAC and IAF. For more information [www.enac.es](http://www.enac.es)

*Accreditation will remain valid until notification to the contrary. This accreditation is subject to modifications, temporary suspensions and withdrawal. Its validity can be confirmed at [www.enac.es](http://www.enac.es)*

ENAC es firmante de los Acuerdos de Reconocimiento Mutuo establecidos en el seno de la European co-operation for Accreditation (EA) y de las organizaciones internacionales de organismos de acreditación, ILAC e IAF ([www.enac.es](http://www.enac.es))

Código Validación Electrónica: 4649r6V5P061M62f11

La acreditación mantiene su vigencia hasta notificación en contra. La presente acreditación está sujeta a modificaciones, suspensiones temporales y retirada.

Su vigencia puede confirmarse en <https://www.enac.es/web/enac/validacion-electronica> o haciendo clic [aquí](#)

**Categoría 0 (Ensayos en las instalaciones del laboratorio)**
*Category 0 (Test in the permanent laboratory)*
**DEPARTAMENTO MICROBIOLOGÍA/MICROBIOLOGY DEPARTMENT**

Análisis mediante métodos basados en técnicas de aislamiento en medio de cultivo

*Analysis by methods based on techniques of isolation in culture medium*

**(1)"The Laboratory possesses a Public list of tests (LPE) available to customers, according to ENAC Technical Note 19"**

Un método interno se considera que está basado en métodos normalizados cuando su validez y su adecuación al uso se han demostrado por referencia a dicho método normalizado y en ningún caso implica que ENAC considere que ambos métodos sean equivalentes. Para más información recomendamos consultar el Anexo I al CGA-ENAC-LEC.

*An In-house method is considered to be based on standardized methods when its validity and suitability for use have been demonstrated by reference to said standardized method and in no case implies that ENAC considers that both methods are equivalent. For more information, we recommend consulting Annex I to the CGA-ENAC-LEC*

*Accreditation will remain valid until notification to the contrary. This accreditation is subject to modifications, temporary suspensions and withdrawal. Its validity can be confirmed at [www.enac.es](http://www.enac.es)*
